Subject: RE: OSWER Human Health Regional Risk Assessors Forum (OHHRRAF), Topic for March Call?

The calls are bimonthly, on the third Thursday of the month. So, after the March 20th call, the next one would be on May 15th.

That sounds like a great plan since you know all those characters :)

Stay tuned to see if we get the ok to participate. Are these calls monthly? April or later would be easier to deal with.

March Call?

Hi, all. I will participate in this call with you, if you'd like. If questions arise related to the issues I was involved with, I could address those. I'd be at a loss, however, to provide any detailed info about the spill and response. Thanks.

Thanks, Jack.

I suspect it might be seen as a "big deal" for us to participate officially in this discussion on this topic.

Dawn, Jack - Should I take this as a formal request from EPA for ATSDR's official participation in this? It might be helpful if we could plan for the next call instead of the one coming up in March.

Hi, Rich. I did some very specific, isolated work related to this incident, but know very little about the circumstances or issues of the spill. I suggest you contact Jack Kelly (OSC); he may be able to either discuss this with the OHHRRAF or recommend an involved ATSDR rep to talk to the group. Thanks.

Subject: OSWER Human Health Regional Risk Assessors Forum (OHHRRAF), Topic for March Call?

Importance: High

Dawn -

Now that the spill is no longer an emergency, I am interested in identifying a speaker to discuss the scientific (e.g., risk assessment) aspects of the federal and state response to the subject spill during an upcoming call of the OSWER Human Health Regional Risk Assessors Forum (OHHRRAF). Might you be able to identify an appropriate person for me to contact (e.g., at ATSDR or EPA) and solicit as a speaker? Our next call is scheduled for March 20.

Thanks for your time and consideration.

Subject: RE: OSWER Human Health Regional Risk Assessors Forum (OHHRRAF), Topic for March Call?

Hi, Rich. In terms of removal activity, Jack Kelley (OSC) would be the point of contact. From a tox perspective, ATSDR reps in Region 3 have been heavily involved. For EPA, I've been watching from the sidelines, but am starting to get pulled in. Also, below is a table of contacts released by the Division Director, but this mostly pertains to community concerns. If you have any questions, please let me know. Thanks.

Dawn

Requestor	Region 3 Contact	Contact Phone Number:
Rep of Congress/Committees; State/Local Government Official	Linda Miller, Office of State and Congressional Relations	215/814-2068
Local Resident	Trish Taylor, Community Involvement Coordinator	215/814-5539
Press	Bonnie Smith, Press Officer	215/814-5543
All Others	Karen Melvin, HSCD Deputy Director	215/814-3275

Might you be able to help me identify who within EPA is responding to the spill near Charleston, WV?

Thanks for your time and consideration.

Hi Rich,

Any chance you could line up a Region 3 person to talk about the MCHM spill in West Virginia in a future call?

Susan
